Prior Approved Permits

16-19 15 Schooh, Dennis Miller trees removal This was approved as per granted permission of such permits by the Code Enforcement Officer.

Mr. Pumpaly and Ms. Mann brought some thoughts to the Commission.

Ms. Mann requests that for minor permits Mr. Pumpaly and Ms. Mann be allowed to approve on the spot. This can already be done for tree removal. This would help with the time lag that could occur when someone is ready to do the work. Mr. Confalone stated the desire of the Planning and Zoning Commission to recommend to the Town Commissioners that they approve changes to the Planning and Zoning Code so that Town Administration can render minor permits on the spot subject to review at the next Planning and Zoning meeting, excluding Historic District permits. This is already addressed in the Code and would require no further work from the Commissioners. Mr. Thompson will take this request to the Commissioners.

Ms. Mann also brought a copy of a placard to be placed at the premises so that everyone would know that they had received a permit for the work being performed. These will be used starting right away.

Ms. Boudart moved to close the meeting, seconded by Mr. Confalone. Approved 3-0

Respectfully submitted,

Debbie Myers, Town Clerk
